企业介绍
Brand Introduction

Yoobao | 羽博

越品质 • 悦生活

羽博创立于2005年，是一家集研发、生产、销售、服务于一体的科技企业，主营业务包括3C数码、消费电器、新能源产业等。多年来坚持以“品质改变生活”的理念引领公司产品开发，以人为本，科技创新出更多的产品，带来愉悦生活的全新体验。

我们相信，美好就在身边，小产品也可以取悦生活。公司产品包括：充电宝、充电器、充电线、手机支架、小风扇、加湿器、移动储能、厨房电器、生活电器....等，科技创造无限可能，羽博成为上千万用户热爱信赖的品牌。

多年来不仅做自主销售，更为更多全球品牌商提供全产业链的一站式服务，形成共创、共赢、共发展的模式，服务全球更多用户。

Established in 2005, Yoobao is a professional high-tech enterprise integrating R&D, production, sales and service of 3C digital, consumer electronics, new energy industry, etc. We have been adhering to the concept of "Quality for a better life style" to guide our development for many years. We dedicate to create more products through new technologies to bring a brand-new experience of pleasant life.

We believe that small products around us can also make life better. Our main products include: power banks, chargers, charging cables, mobile phone holders, small fans, humidifiers, portable energy storages, kitchen appliances, domestic appliance, etc. Technology gives unlimited possibilities to Yoobao and has made it a reliable brand that tens of millions of users love and trust.

We have sold products for many years and also provide one-stop service of the whole industry for global brand owners. A cooperation model of innovating together, winning together and developing together is formed to serve more users around the world.

- 羽 博：羽翼丰博
- 使 命：紧跟时代，创一流的产品，成为用户热爱的品牌
- 愿 景：科技尽善尽美，创造更多可能
- 价值观：开拓创新，勇于担当，追求卓越，长期主义
- 用 户：为用户提供贴心的服务
- 客 户：共创、共赢、共发展

- Yoobao: Feather rich
- Mission: Keep up with the times, create first-class products and become a brand loved by users.
- Vision: Perfect technology, create more possibilities
- Values: Pioneering and innovative, courageous to take responsibility, pursuit of excellence, long termism
- Users: provide users with considerate services
- Merchants: co-creation, win-win and common development

比原装多用1天的商务电池

智能手机火爆却电量消耗飞快，羽博推出市场上第一块超越原装电量的多普达手机电池。

Although smart phones are popular they have the problem of fast power consumption. Yoobao launched the first Dopod mobile phone battery and the performance was better than the original.

2005

超快充大容量移动电源

随着更多支持超高速充电的数码产品出现，人们使用数码设备的时间越来越长推出更多超级快充超大容量产品系列。

With the emergence of more digital products that support ultra high-speed charging, people use digital devices longer and longer, therefore more products with super fast charging and big capacity series were launched.

2018

300W-2200W全系列双向逆变储能

推出从300W-2200W全功率段双向逆变便携式储能电源产品，最快市电1.4小时充满光伏4小时充满，全系列产品跨进储能新赛道。

Yoobao launches bi-directional inverter portable power station of full power range from 300W-2000W. The fastest speed allows it fully charged in 1.4 hours with mains electricity and 4 hours with photovoltaics. A full range of products have entered the new track of power station.

2022

2009

开创移动电源品类

羽博率先把品质稳定、续航更长的18650锂电池应用在手机应急充上开创了真正的移动电源品类。

Yoobao is the first to apply the 18650 lithium battery with stable quality and longer battery life to emergency charging of mobile phones, creating a truly power bank category.

2015

安全储能电源倡导者

率先使用安全系数更高，循环次数4倍于三元锂电池的磷酸铁锂作为便携式储能的电池原料。

Yoobao is the first to use lithium iron phosphate batteries as the battery raw material of portable power station. This material has a higher coefficient and four times longer service life than ternary lithium batteries.

羽博十八年的发展，是中国电子消费市场升级迭代的缩影，也是见证了电池应用技术的时代变迁。

2005年，智能手机增长却电量消耗飞快，羽博推出超越原装电量的多普达手机电池。

2009年，苹果手机进入中国市场却不能换电，羽博率先推出续航更长、容量更大的充电宝，开创了真正的移动电源品类。

2015年，Z世代成为消费主力，羽博推出续航时间远超市场，常年居于天猫USB风扇类前列的可充电风扇产品。

2020年，新冠疫情催生露营经济，电池突破循环次数极限，羽博把安全系数、循环次数更高的磷酸铁锂电池应用到离网户外供电场景上，推出从100W到2200W全功率段储能电源产品。

十八年来，羽博始终能紧抓市场机会，贴近国民需求，充分发挥积累的电池应用的技术和品牌优势，从数码充电到消费电子再到便携储能，通过自我革命和创新进化，持续巩固和扩大核心竞争力，也引领着消费需求趋势与产业的高质量发展。

The 18-year development of Yoobao is the epitome of the upgrading and iteration of China's electronic consumer market, and it has also witnessed the changes of the battery application technology.

2005, the growth of smartphones is facing the problem of rapid power consumption. Yoobao launched the first Dopod mobile phone battery and the performance was better than the original. 2009, iPhone entered the China market, but there was a problem that the battery could not be replaced. Yoobao is the first to launch the power bank with longer battery life and larger capacity creating a real power bank category.

2015, Gen Z became the main consumers, Yoobao launched the USB fan products with longer working time far exceeding the market. It has always been at the forefront of Tmall's USB fan category for years.

2020, COVID-19 spawned camping economy. The battery broke through the long cycle limit, and Yoobao applied lithium iron phosphate batteries on full series of portable power station and launched full range models from 100W to 2000W.. This type of battery cells has higher coefficient on safety and more cycle life.

Understanding customer's needs better than manufacturer, we adhere to the concept of "co-creation, win-win, and common development" in the intelligent manufacturing experience of 3C digital consumer electronics and new energy industries as well as the one-stop service system of the whole industry chain, providing solutions for more global brands from industrial design, electronic solutions to mold opening, production and assembly. No matter power bank USB small appliances, or portable power station, all can meet the differentiated needs of different customers around the world and the pursuit of rapid innovation.

我们的服务 Our Service

OEM/ODM 羽博智造

Yoobao Intelligent Manufacturing

比制造工厂更懂用户需求，我们秉承“共创、共赢、共发展”的理念在3C数码消费电子、新能源产业的智造经验，以及全产业链一站式服务体系，为更多全球品牌提供从工业设计、电子方案、到结构开模、生产组装的全生命周期产品解决方案，无论是充电宝、USB小电器、便携式储能电源，灵活满足全球不同客户的差异化需求及对快速创新的追求，让创新快速落地，实现共赢价值。

We adhere to the concept of "co-creation, win-win, and common development", relying on more than ten years of intelligent manufacturing experience in 3C digital, consumer money, and new energy industries, and a one-stop service system for the entire industry chain to provide more global brands Provide full life cycle product solutions from industrial design, electronic solutions, to structural mold opening, production and assembly, whether it is power bank, USB small appliances, portable energy storage power supply, flexibly meet the differentiated needs of different customers around the world and fast innovation The pursuit of helping you meet current challenges and future market opportunities.

全产业链一站式生产体系

One-stop production system of the whole industry chain

羽博建成了集工业设计、电子研发、开模、注塑、贴片、组装、包装为一体的服务体系，打破消费电子制造业的传统边界，对设计、技术、效率、品质、服务全面升级，我们与三星、比克、南芯、英集芯等更多上游供应链体系形成战略合作关系，为全球客户带来全产业链协同效应。

Relying on Yoobao Science and Technology Park, we have established a service system integrating industrial design, electronic research and development, mold opening, injection molding, SMT, assembly, and packaging, breaking the traditional boundaries of consumer electronics manufacturing and focusing on design, technology, efficiency, and quality. , The service has been fully upgraded. We have formed strategic partnerships with more upstream supply chain systems such as Samsung BAK, Nanxin, and INJOINIC, bringing the synergy effect of the entire industry chain to global customers.

羽博人认为，工业设计是实现产品与用户匹配的创造性活动。它需要设计师以人为本、以市场为导向，提供有真正价值的设计，以产品为载体提升人们的生活质量，开创新的生活方式，这需要在产品的功能性、美观性、可用性、可持续性等方面作全方位的考量。

例如羽博在开发带线充电宝时，就创新性的推出可拆卸线设计，因为数据线的寿命一般比充电宝寿命要短，可拆卸可换线设计在很大程度上提高了产品的可维护性，延长了产品的寿命，也延续了“品质改变生活”的品牌理念。

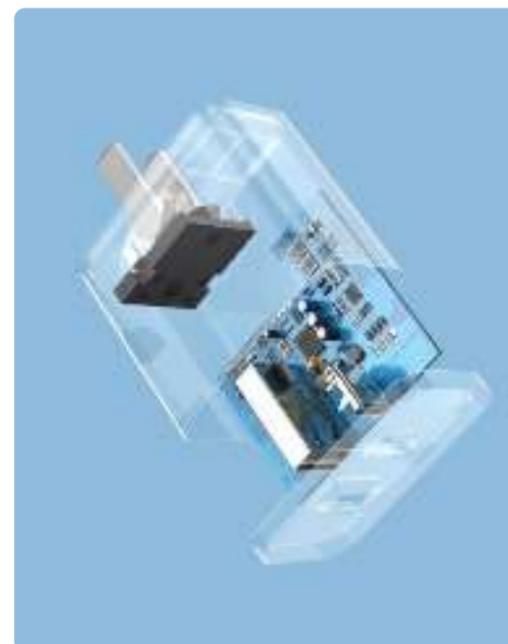

得益于从创立之初直面终端的D2C模式，特别多年来通过电商客户积累的数字资产，羽博始终能基于对用户画像、生活方式和产品属性的深度洞察进行产品研发持续踏准市场节奏和消费迭代，不断跨界孵化出一代又一代爆品。

Yoobao believes that industrial design is a creative activity to match products with users. It requires designers to be people-oriented and market-oriented to provide designs with real value.

Using products as a carrier to improve people's quality of life and create a new way of life requires comprehensive consideration of the product's functionality, aesthetics, usability, and sustainability. For example, Yoobao innovatively launched a detachable cable design when developing the power bank with cable, the service life of the cable is generally shorter than that of the power bank, the detachable and replaceable cable design greatly improves the maintainability of the product, prolongs the service life of the product and continues the brand concept of "quality changes life".

Thanks to the D2C mode that we directly face the end-user from the beginning of our establishment, especially the digital assets accumulated through e-commerce customers over the years, Yoobao has always been able to conduct product research and development based on in-depth insights into user portraits lifestyles and product attributes, which continues to follow the market rhythm and consumption iterations, developing many popular products.

创新力：平均3天推出一款新品

Innovation: We can launch a new product in an average of three days

除了结合互联网基因外，羽博产品力更重要的优势是构建了坚实的供应链基础。贴近生活，创造美好体验的产品团队，均超过20年的电子设计、工业设计、模具注塑经验。设计、开模、注塑、生产一体化的自建体系，极大提升新品研发效率、精度和工艺水平，同时降低研发成本和研发失败率。羽博用近乎3天推出一款新产品的速度，突破行业的既有范式与瓶颈，在延续和深化充电应用核心技术基础上不断创新，羽博产品拓展到更多跨界领域。

In addition to combining the Internet, Yoobao's more important advantage is it has built a solid supply chain foundation. We stay close to life and create products of better experience. Our team members have more than 20 years of experience in electronic design, industrial design and mold injection. The self-built system integrating design, molding, mold injection and production has greatly improved the efficiency, precision and process level of new product research and development, while reducing research and development costs and failure rates. Yoobao launches a new product in an average of 3 days, which breaks through the existing paradigm and bottleneck of the industry, and continues to innovate on the basis of continuing and deepening the core technology of charging applications. Yoobao's products have expanded to more cross-border fields.

制造高品质 快速迭代

High quality, fast iteration

依托一站式产业链制造园区，和专业的生产管理团队，具有丰富的电池组、移动电源PACK生产制造经验，通过羽博科技园一体化生产体系，我们能深度参与产品每一个生产环节通过全流程管理，建立起高效供应链能力和完善的质量管理体系，把高品质的品牌形象不断延续，让产品力+品牌力成为企业穿越周期的强劲引擎。

Relying on the one-stop industrial chain manufacturing park and professional production management team, we have rich experience in the production and manufacturing of battery packs and power bank. Through the integrated production system of Yoobao Technology Park, we can deeply participate in every part in production. Through the whole process management, we establish efficient supply chain capability and perfect quality management system, and extend the image of high-quality brand, making product and brand become the strong engine for our company to cross the cycle.

品质是基石

Quality is the foundation stone

从2005年缔造第一款超越原装电量的多普达电池开始，羽博电池就拔高了行业的品质标准，构建了从供应链到制造端，从流通端到服务端的品质全链路管控体系。参与起草和制定充电宝、数据线、户外电源等多项产品的行业标准、团体标准。我们致力以先进标准定义卓越品质，引领行业品质升级，向用户传递品质信任，为社会提供更优质更有价值的消费电子产品。

Since the creation of the first Dopod battery that exceeded the original capacity in 2005, Yoobao battery has raised the quality standard of the industry and built a full-link quality control system from supply chain to manufacturing and from circulation to service. We participated in the drafting and formulation of industry and group standards for power bank charging cable and power station. We are committed to defining excellent quality with advanced standards, leading the quality upgrade of the industry, delivering quality trust to users, and providing the society with better quality and more valuable consumer electronics products.

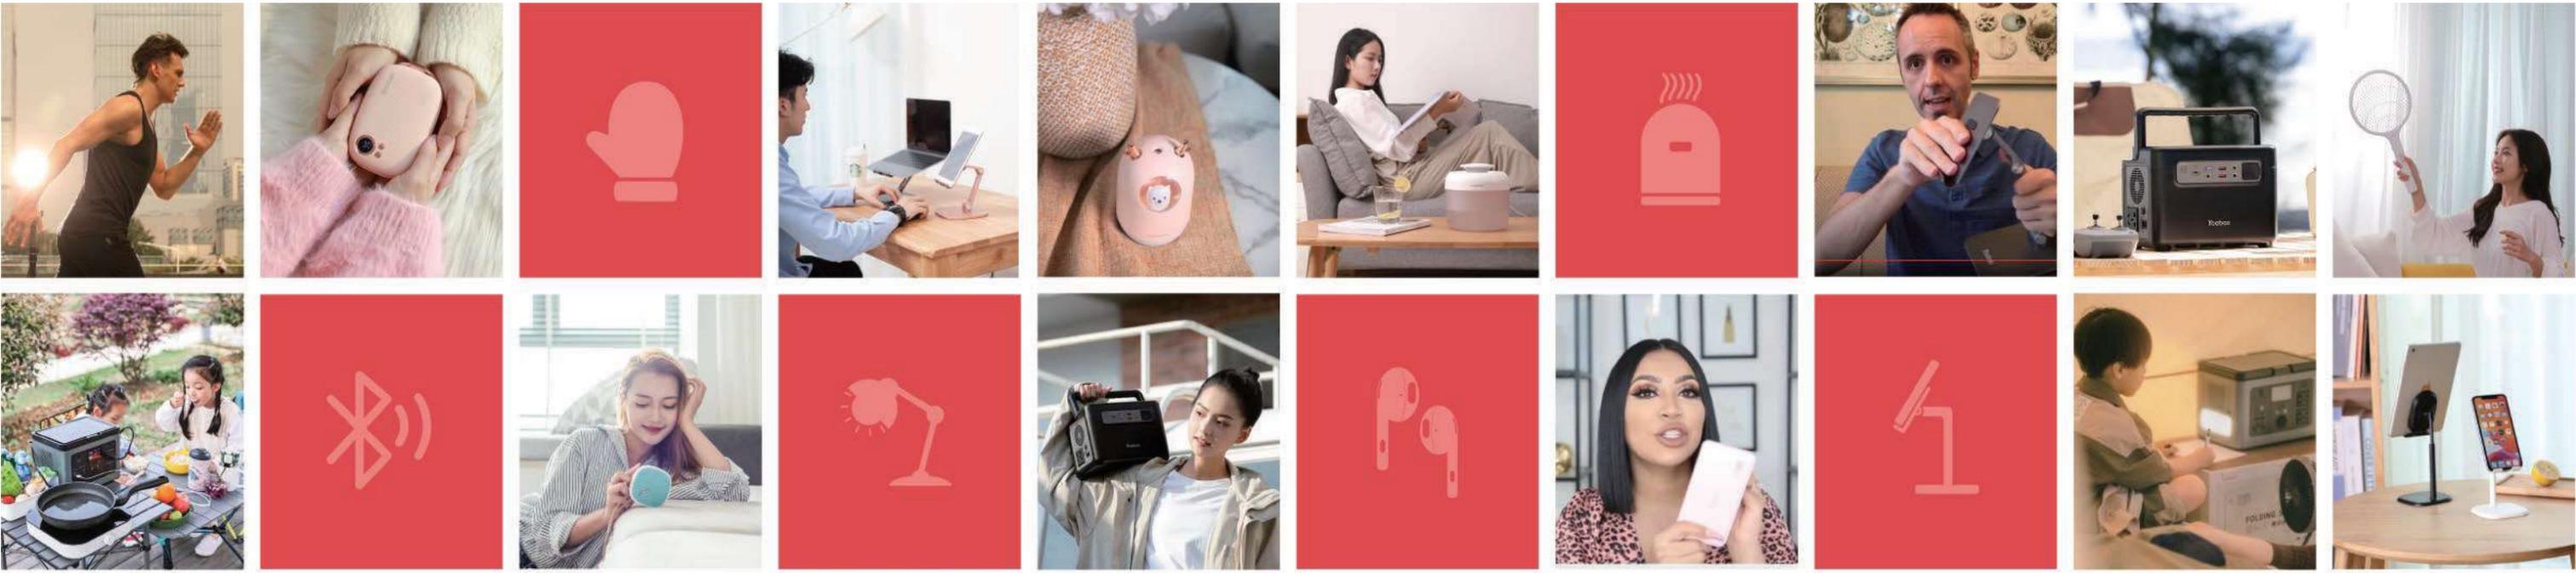

集群优势 快速交付

Cluster Advantage, Quick Delivery

羽博成熟的供应链配置，加上一体化研发生产体系，让我们能快速地完成对产品设计、原料采购测试验证、总装集成以及批量生产。在最短时间内为OEM/ODM客户提供定制化优质产品，3C数码配件类定制产品更是快至“今天下单、明天发货”，实现高效高质交付。

With Yoobao's mature supply chain configuration and with an integrated R&D and production system, we can quickly complete product design, raw material procurement test verification, final assembly integration and mass production. And provide OEM/ODM customers with customized high-quality products in the shortest time. Regarding 3C digital accessories customized products, speed are fast as "order today, ship tomorrow", achieving efficient and high-quality delivery.

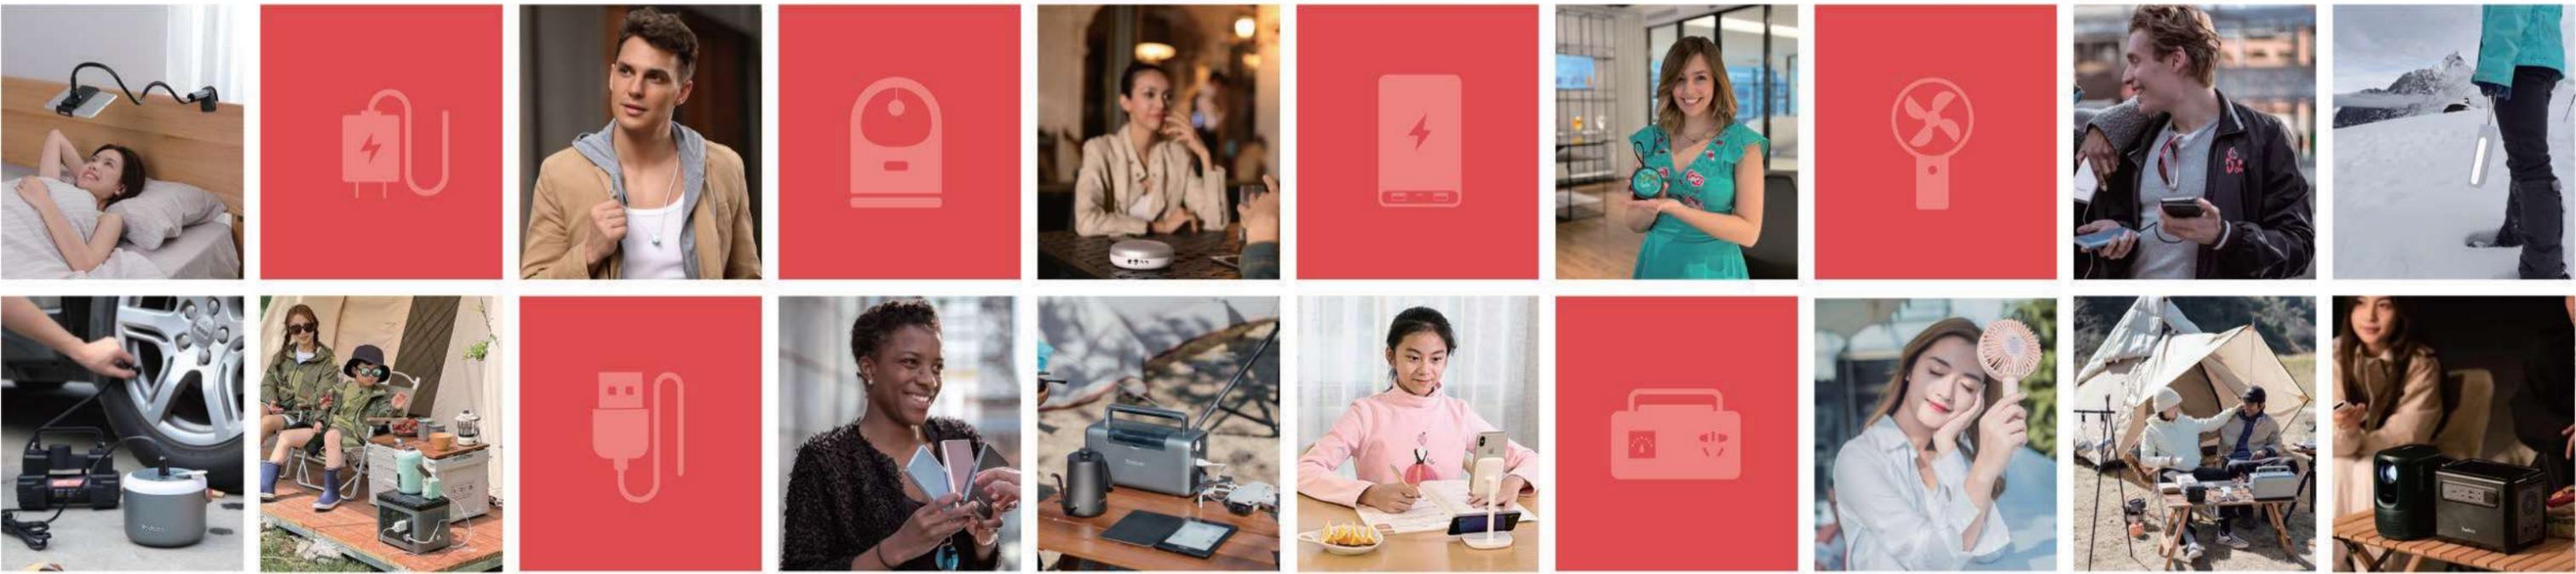

8000万+用户的选择

The choice of 80 million + users

越品质 悦生活 愉悦全球用户美好生活

The better quality, the better life. Provide a beautiful life to users around the world.

POWER STATION 储能电源

EN200W | EN200 | EN300WL | EN300Q | EN700Q
EN1200Q | EN2000Q | EN2200Q

羽博在近几年来一直积极布局便携式储能赛道，推出从100W到2200W全功率段便携式储能电源产品，覆盖户外办公摄影低功率段、应急备电轻户外中功率段、自驾户外高功率段、轻便家庭储能超高功率段全场景需求。基于对电池材料和充电技术的理解，在市场上率先推出磷酸铁锂+双向逆变（1.4小时充满）“安全电芯”+“1小时快充”双主打全系列便携式储能产品。以品牌自营+OEM/ODM双通道并行的方式，为全球用户提供环保便捷、稳定的新能源产品。凭借全产业链优势，为全球品牌提供一体化便携式储能电源产品服务方案。

磷酸铁锂双向逆变全系列

Lithium iron phosphate bi-directional inverter full series

羽博Q系列采用循环次数高达2000次，安全性更高的磷酸铁锂电芯，搭配双向逆变高速充电技术覆盖AC 200W到2200W全系列产品，无论700W还是1200W，只需1.4小时充满电源，1200W更搭配400W高速太阳能输入口，快至4小时光充，户外用电无忧

Yobao Q series power stations use lithium iron phosphate batteries with a life cycle up to 2000 times and higher safety. Equipped with high-speed bidirectional inverter charging technology, Q series can be fully recharged in a short time. EN700Q or EN1200Q takes only 1.4 hours to be fully recharged with AC input. EN1200Q also comes with 400W high-speed solar input and can be fully charged in 4 hours. No worries about outdoor power consumption anymore.

Power station with the highest configuration in the high power segment.

1200W output, outdoor entertainment + outdoor cooking + emergency power backup + outdoor work.

Bidirectional inverter 1000W input, fully charged in 1.4 hours

1229Wh capacity lithium iron phosphate battery, safer and longer service life.

PD100W Type-C fast charging, supporting fast charging for laptops and cellphones.

XT60 400W solar panel input, fully charge in 4 hours.

EN2000Q | 2000W 双向逆变便携式户外电源 2000W Bi-directional AC Inverter Portable Power Station

1.84度电/2000W, 小型家储+硬核户外电源2合1
具备并机功能, 可连接电池包
2000W输出, 户外娱乐+户外煮食+应急备电+家庭储能
双向逆变1500W输入, 只需2小时充满电
1843Wh容量磷酸铁锂电芯, 更安全寿命更长
PD100W Type-C快充, 支持笔记本手机等设备快充
XT60 800W太阳能输入, 约3.5小时充满

1.84 kWh/2000W, 2 in 1, small size household power storage + powerful outdoor power supply.
Support parallel cooperation function, can connect external battery pack.
2000W output, outdoor entertainment + outdoor cooking + emergency back-up power + household power storage.
Bi-directional inverter AC 1500W input, only needs 2hours to be fully recharged.
1843Wh LFP battery cells, safer and longer usage life
PD100W Type-C quick charge, support quick charge for laptops, mobile phones and other devices
XT60 800W solar input, can be fully recharged in 3.5hours

EN2200Q | 2200W 双向逆变便携式户外电源 2200W Bi-directional AC Inverter Portable Power Station

2.3度电/2200W，小型家储+硬核户外电源2合1
2200W输出，户外娱乐+户外煮食+应急备电+家庭储能
双向逆变1000W输入，只需2.5小时充满电
2300Wh容量磷酸铁锂电芯，更安全寿命更长
PD100W Type-C快充，支持笔记本手机等设备快充
XT60 800W太阳能输入，快至4小时充满

2.3 kilowatt-hours/2200W output, small household power storage + strong outdoor power supply.
2200W output, outdoor entertainment + outdoor cooking + emergency power backup+household energy storage.
Bidirectional inverter 1000W input, fully charged in 2.5 hours.
2304Wh capacity lithium iron phosphate battery, safer and longer service life.
PD100W Type-C fast charging, supporting fast charging for laptops and phones.
XT60 800W solar panel input, fully charged in 4hours.

磷酸铁锂小功率便携式系列

Low Power Rate Power Station with Lithium Iron Phosphate Battery

羽博小功率便携式系列户外电源，整机采用便携式轻量设计，小小身材配备AC+DC+高速USB接口一站式解决手机、笔记本电脑、相机、无人机、云台、直播灯、投影仪、户外音箱等数码电子设备供电需求选用磷酸铁锂电芯，更安全循环寿命更长，数码达人户外摄影办公轻松放包，出行无忧。

Yoobao low power rate portable power station series, lightweight while powerful, equipped with AC + DC + high-speed USB interfaces, which can meet the power demands of digital electronic equipment such as mobile phones, laptops, cameras, drones, gimbals, live lights, projectors, and outdoor speakers. Yoobao power stations, adopting lithium iron phosphate battery which is safer and has a longer cycle life, can easily handle outdoor photography and work. Free from power anxiety.

Charging Accessories 充电配件系列

4015 | 4016 | 4017 | C010B | C010A

十八年专注充电技术安全，精心钻研充电技术革新，全新升级氮化镓充电器，超级快充+持续低温，带来更安全更快速的充电体验。

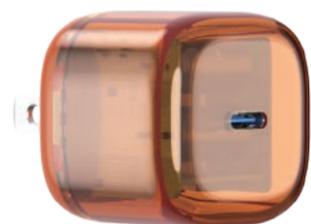

33W
氮化镓多彩适配器

20W
氮化镓多彩适配器

65W
三口氮化镓适配器

新升级氮化镓 快充充电器系列

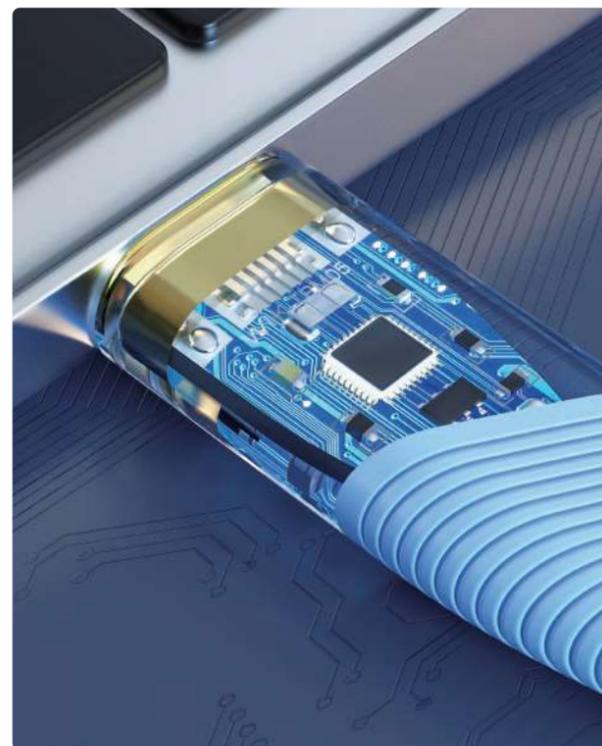

Upgraded Gallium Nitride fast charging adapter series

PD20W 氮化镓快充适配器

PD20W Gallium Nitride Fast Charge Adapter

全新升级氮化镓充电器，
超级快充+持续低温，
带来更安全更快速的充电体验

The newly upgraded gallium nitride charger, super fast
charging + continuous low temperature, brings a safer and
faster charging experience.

2.4A电流 镀金端子 亲肤质感
Lightning多彩编织系列硅胶数据线

100W超级快充 加粗线芯
Type-C多彩编织系列快充数据线

27W快充 镀金端子 加粗线芯
C-L多彩编织系列快充数据线

强韧不易断 快充数据线系列

Strong and resilient Fast charge cable series

20W 快充数据线
20W Fast charge cable

全新升级快充数据线，坚韧材质，
数据传输+手机补电二合一，
搭配快充适配器使用，带来更快速
更便捷的快充体验。

New upgraded fast charging data cable, tough material
Data transmission + mobile phone charging two in one
Use with a fast charging adapter to bring faster
More convenient fast charging experience.

USB FAN USB风扇

F1 | F2 | F2P | F3 | F3S | F04 | F6

依托十数年锂电池供应链优势，开发出多种容量规格续航时间远超市场的USB风扇产品，近年来产品销量稳居天猫USB风扇类目前三位，为更多用户带来充电一次吹风数十小时的冰凉夏日。

F3S 可充电
2000-3000mAh 手持小风扇

F16 可充电
1200-4500mAh 手持小风扇

F6 可充电
2000-3000mAh 挂脖小风扇

超长续航 手持充电小风扇系列

Long battery life Handheld rechargeable mini fan series

3000mAh-6000mAh 手持小风扇
3000mAh-6000mAh Handheld mini fan

7年专研风扇风道设计
将大风量和静音完美平衡
充电一次，最高可吹60小时
十数年专注充电，敢承诺超长续航

With 7 years of research and development of air duct design for fans we perfectly balance large air volume and silence. Fully charged once use up to 60hours. We focus on charging area over a dozen years and guarantee super long battery life.

超大风量 桌面小风扇系列
Large air volume Desktop fan series

2500mAh-10000mAh 桌面静音小风扇
2500mAh-10000mAh Desktop silent small fan

7年专研风扇风道设计
将大风量和静音完美平衡
充电一次，最高可吹60小时
十数年专注充电，敢承诺超长续航

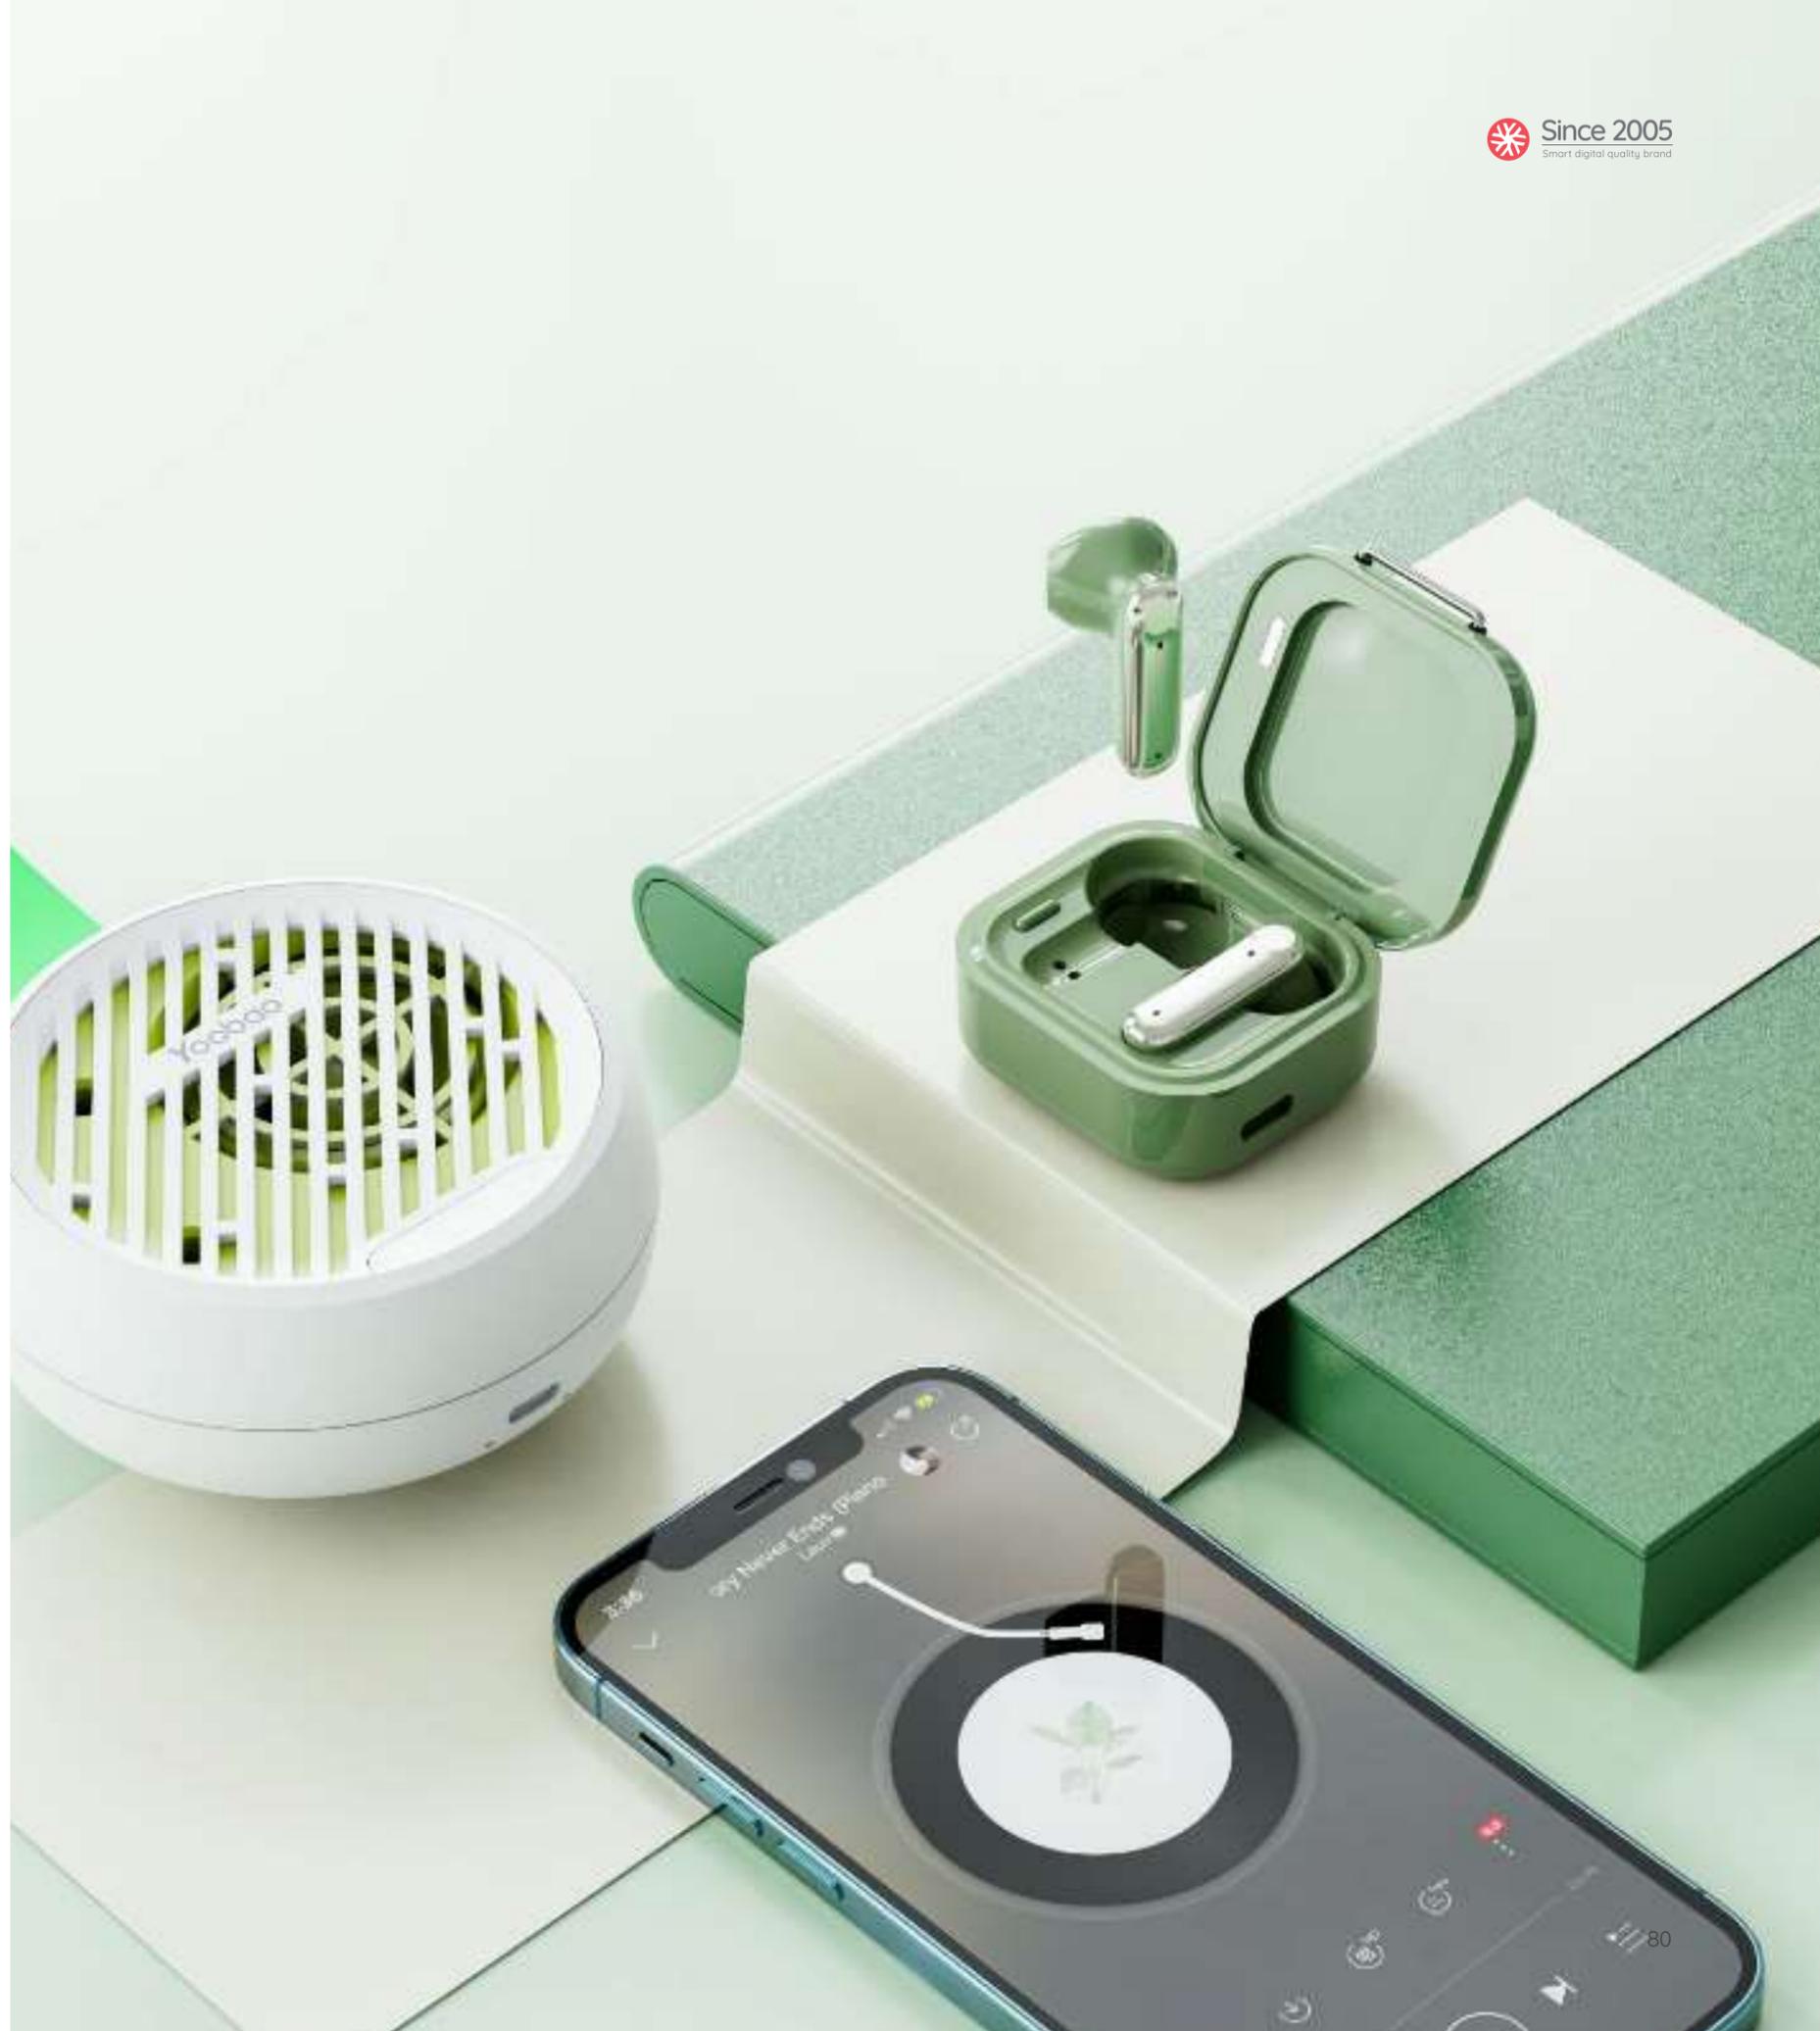

With 7 years of research and development of air duct design for fans we perfectly balance large air volume and silence. Fully charged once use up to 60hours. We focus on charging area over a dozen years and guarantee super long battery life.

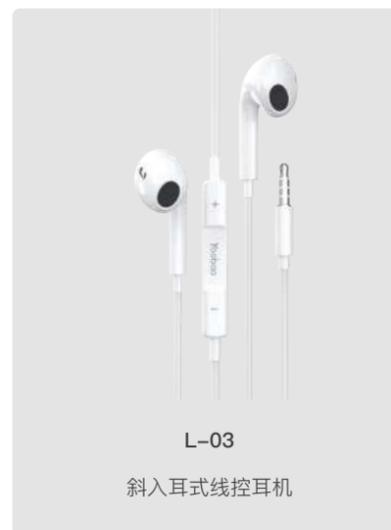

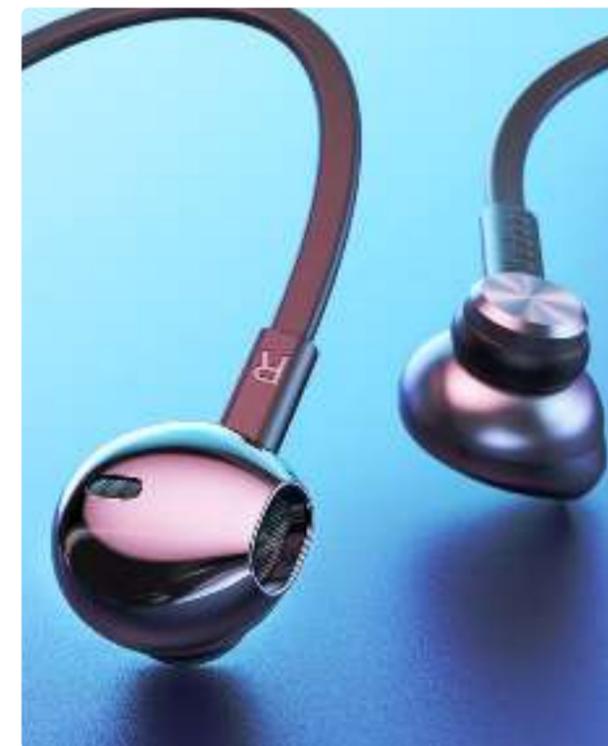

05

Audio 音频系列

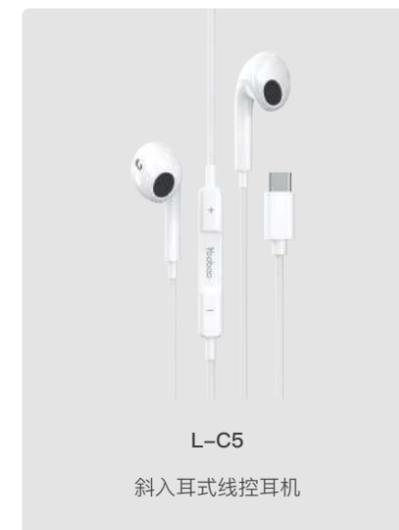

L-03 | L-C5 | YB-507 | YB-503 | M1 | M2

专业声学团队精心调校，精准捕捉音质细节，专业级音质，还原音乐本质，所听即所得。

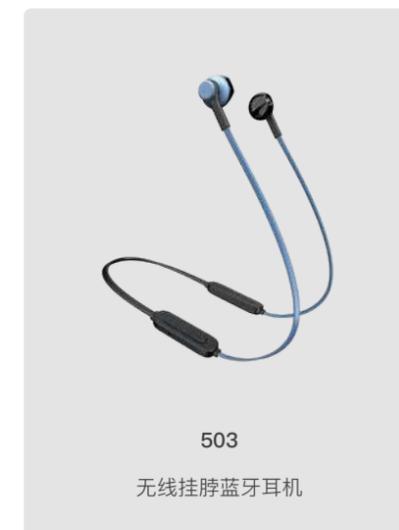

L-03
斜入耳式线控耳机

L-C5
斜入耳式线控耳机

503
无线挂脖蓝牙耳机

还原音乐的本质 耳机系列

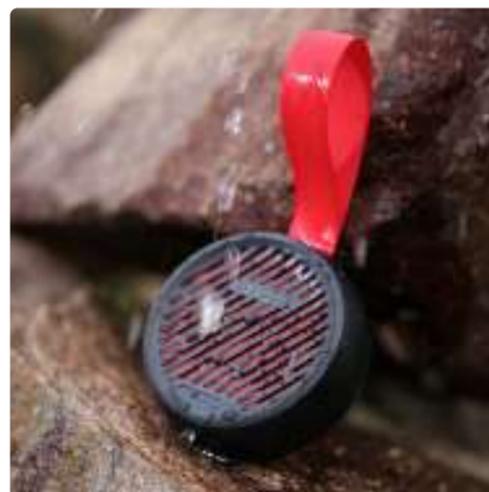

Earphone series

TWS无线蓝牙耳机

Wireless bluetooth earphone

反复微调三频比例和中低频衔接，
频段分布更均衡，经过精心调教后，
带来清亮高音、饱满重低音，
还原真实音乐细节。

We repeatedly fine-tuned the three-band ratio and the
mid-low, frequency connection to make the frequency
band distribution more balanced, after careful tuning, it
brings clear treble, full and heavy bass, restoring real
music details.

型号: M1Pro 蓝牙音箱
频响范围: 250Hz-11KHz
蓝牙版本: 5.0
尺寸: 109*58*79mm
重量: 288g
电池容量: 2000mAh

Model: M1Pro Bluetooth Speaker
Frequency Range: 250Hz-11KHz
Bluetooth Version: 5.0
Size: 109*58*79mm
Weight: 288g
Battery Capacity: 2000mAh

型号: M2 蓝牙音箱
频响范围: 250Hz-11KHz
蓝牙版本: 4.2
尺寸: 93*93*46mm
重量: 208g
电池容量: 2000mAh
