Yoobao | 羽博

越品质 • 悦生活

羽博创立于2005年，是一家集研发、生产、销售、服务于一体的科技企业，主营业务包括3C数码、消费电器新能源产业等。多年来坚持以“品质改变生活”的理念引领公司产品开发，以人为本，科技创新出更多的产品，带来愉悦生活的全新体验。

我们相信，美好就在身边，小产品也可以取悦生活。公司产品包括：充电宝、充电器、充电线、手机支架、小扇、加湿器、移动储能、厨房电器、生活电器....等，科技创造无限可能，羽博成为上千万用户热爱信赖的品牌。

多年来不仅做自主销售，更为更多全球品牌商提供全产业链的一站式服务，形成共创、共赢、共发展的模式，服务全球更多用户。

Established in 2005, Yoobao is a professional high-tech enterprise integrating R&D, production, sales and service of 3C digital, consumer electronics, new energy industry, etc. We have been adhering to the concept of "Quality for a better life style" to guide our development for many years. We dedicate to create more products through new technologies to bring a brand-new experience of pleasant life.

We believe that small products around us can also make life better. Our main products include: power banks, chargers, charging cables, mobile phone holders, small fans, humidifiers, portable energy storages, kitchen appliances, domestic appliance, etc. Technology gives unlimited possibilities to Yoobao and has made it a reliable brand that tens of millions of users love and trust.

We have sold products for many years and also provide one-stop service of the whole industry for global brand owners. A cooperation model of innovating together, winning together and developing together is formed to serve more users around the world.

羽博EN1S 便携式户外电源

登上珠穆朗玛峰的移动电源

Business fast charging power bank that ever reached Mountain Everest

2021年5月，世界旅行家皮元攀登珠穆朗玛峰，在海拔6000米以上使用羽博移动电源给笔记本电脑供电。

In May 2021, the world traveler Pi Yuan climbed Mountain Everest and used Yoobao power bank to power the laptop above an altitude of 6,000 meters.

全产业链一站式生产体系

羽博建成了集工业设计、电子研发、开模、注塑、贴片、组装、包装为一体的服务体系，打破消费电子制造业的传统边界，对设计、技术、效率、品质、服务全面升级，我们与三星、比克、南芯、英集芯等更多上游供应链体系形成战略合作关系，为全球客户带来全产业链协同效应。

One-stop production system of the whole industry chain

Relying on Yoobao Science and Technology Park, we have established a service system integrating industrial design, electronic research and development, mold opening, injection molding, SMT, assembly, and packaging, breaking the traditional boundaries of consumer electronics manufacturing and focusing on design, technology, efficiency, and quality. The service has been fully upgraded. We have formed strategic partnerships with more upstream supply chain systems such as Samsung BAK, Nanxin, and INJOINIC, bringing the synergy effect of the entire industry chain to global customers.

比原装多用1天的商务电池

智能手机火爆却电量消耗飞快，羽博推出市场上第一块超越原装电量的多普达手机电池。
Although smart phones are popular they have the problem of fast power consumption. Yoobao launched the first Dopod mobile phone battery and the performance was better than the original.

超快充大容量移动电源

随着更多支持超高速充电的数码产品出现，人们使用数码设备的时间越来越长推出更多超级快充超大容量产品系列。
With the emergence of more digital products that support ultra high-speed charging, people use digital devices longer and longer, therefore more products with super fast charging and big capacity series were launched.

300W-2200W全系列双向逆变储能

推出从300W-2200W全功率段双向逆变便携式储能电源产品，最快市电1.4小时充满光伏4小时充满，全系列产品跨进储能新赛道。
Yoobao launches bi-directional inverter portable power station of full power range from 300W-2000W. The fastest speed allows it fully charged in 1.4 hours with mains electricity and 4 hours with photovoltaics. A full range of products have entered the new track of power station.

2005

2009

2015

2018

2022

开创移动电源品类

羽博率先把品质稳定、续航更长的18650锂电池应用在手机应急充上开创了真正的移动电源品类。
Yoobao is the first to apply the 18650 lithium battery with stable quality and longer battery life to emergency charging of mobile phones, creating a truly power bank category.

安全储能电源倡导者

率先使用安全系数更高，循环次数4倍于三元锂电池的磷酸铁锂作为便携式储能的电池原料。
Yoobao is the first to use lithium iron phosphate batteries as the battery raw material of portable power station. This material has a higher coefficient and four times longer service life than ternary lithium batteries.

羽博十八年的发展，是中国电子消费市场升级迭代的缩影，也是见证了电池应用技术的时代变迁。

2005年，智能手机增长却电量消耗飞快，羽博推出超越原装电量的多普达手机电池。

2009年，苹果手机进入中国市场却不能换电，羽博率先推出续航更长、容量更大的充电宝，开创了真正的移动电源品类。

2015年，Z世代成为消费主力，羽博推出续航时间远超市场，常年居于天猫USB风扇类前列的可充电风扇产品

2020年，新冠疫情催生露营经济，电池突破循环次数极限，羽博把安全系数、循环次数更高的磷酸铁锂电池应用到离网户外供电场景上，推出从100W到2200W全功率段储能电源产品。

十八年来，羽博始终能紧抓市场机会，贴近国民需求，充分发挥积累的电池应用的技术和品牌优势，从数码充电到消费电子再到便携储能，通过自我革命和创新进化，持续巩固和扩大核心竞争力，也引领着消费需求趋势与产业的高质量发展。

The 18-year development of Yoobao is the epitome of the upgrading and iteration of China's electronic consumer market, and it has also witnessed the changes of the battery application technology.

2005, the growth of smartphones is facing the problem of rapid power consumption. Yoobao launched the first Dopod mobile phone battery and the performance was better than the original.

2009, iPhone entered the China market, but there was a problem that the battery could not be replaced.

Yoobao is the first to launch the power bank with longer battery life and larger capacity creating a real power bank category.

2015, Gen Z became the main consumers, Yoobao launched the USB fan products with longer working time far exceeding the market. It has always been at the forefront of Tmall's USB fan category for years.

2020, COVID-19 spawned camping economy. The battery broke through the long cycle limit, Yoobao applied lithium iron phosphate batteries on full series of portable power station and launched full range models from 100W to 2000W..... This type of battery cells has higher coefficient on safety and more cycle life.

Understanding customer's needs better than manufacturer, we adhere to the concept of "co-creation, win-win, and common development" in the intelligent manufacturing experience of 3C digital consumer electronics and new energy industries as well as the one-stop service system of the whole industry chain providing solutions for more global brands from industrial design, electronic solutions to mold opening, production and assembly. No matter power bank USB small appliances, or portable power station, all can meet the differentiated needs of different customers around the world and the pursuit of rapid innovation.
